"Then" in 1831, there came another outstanding man, Buckley Waters. He was born in 1794. His wife, Betsy, was born in 1797. They evidently married about 1824 in Hamilton in Madison Co NY State.

Whether or not he operated the mill at Sydenham, I do not know. But he had an influence on the village. He is best known for his record of births, deaths and marriages in our part of Ontario from his arrival in 1831 to 1880.

I was loaned this remarkable booklet and made a copy for my pleasure & information. It leads me to ask, does the village library have a copy?

I leave the citizens of Sydenham to look after their own past, present and future.

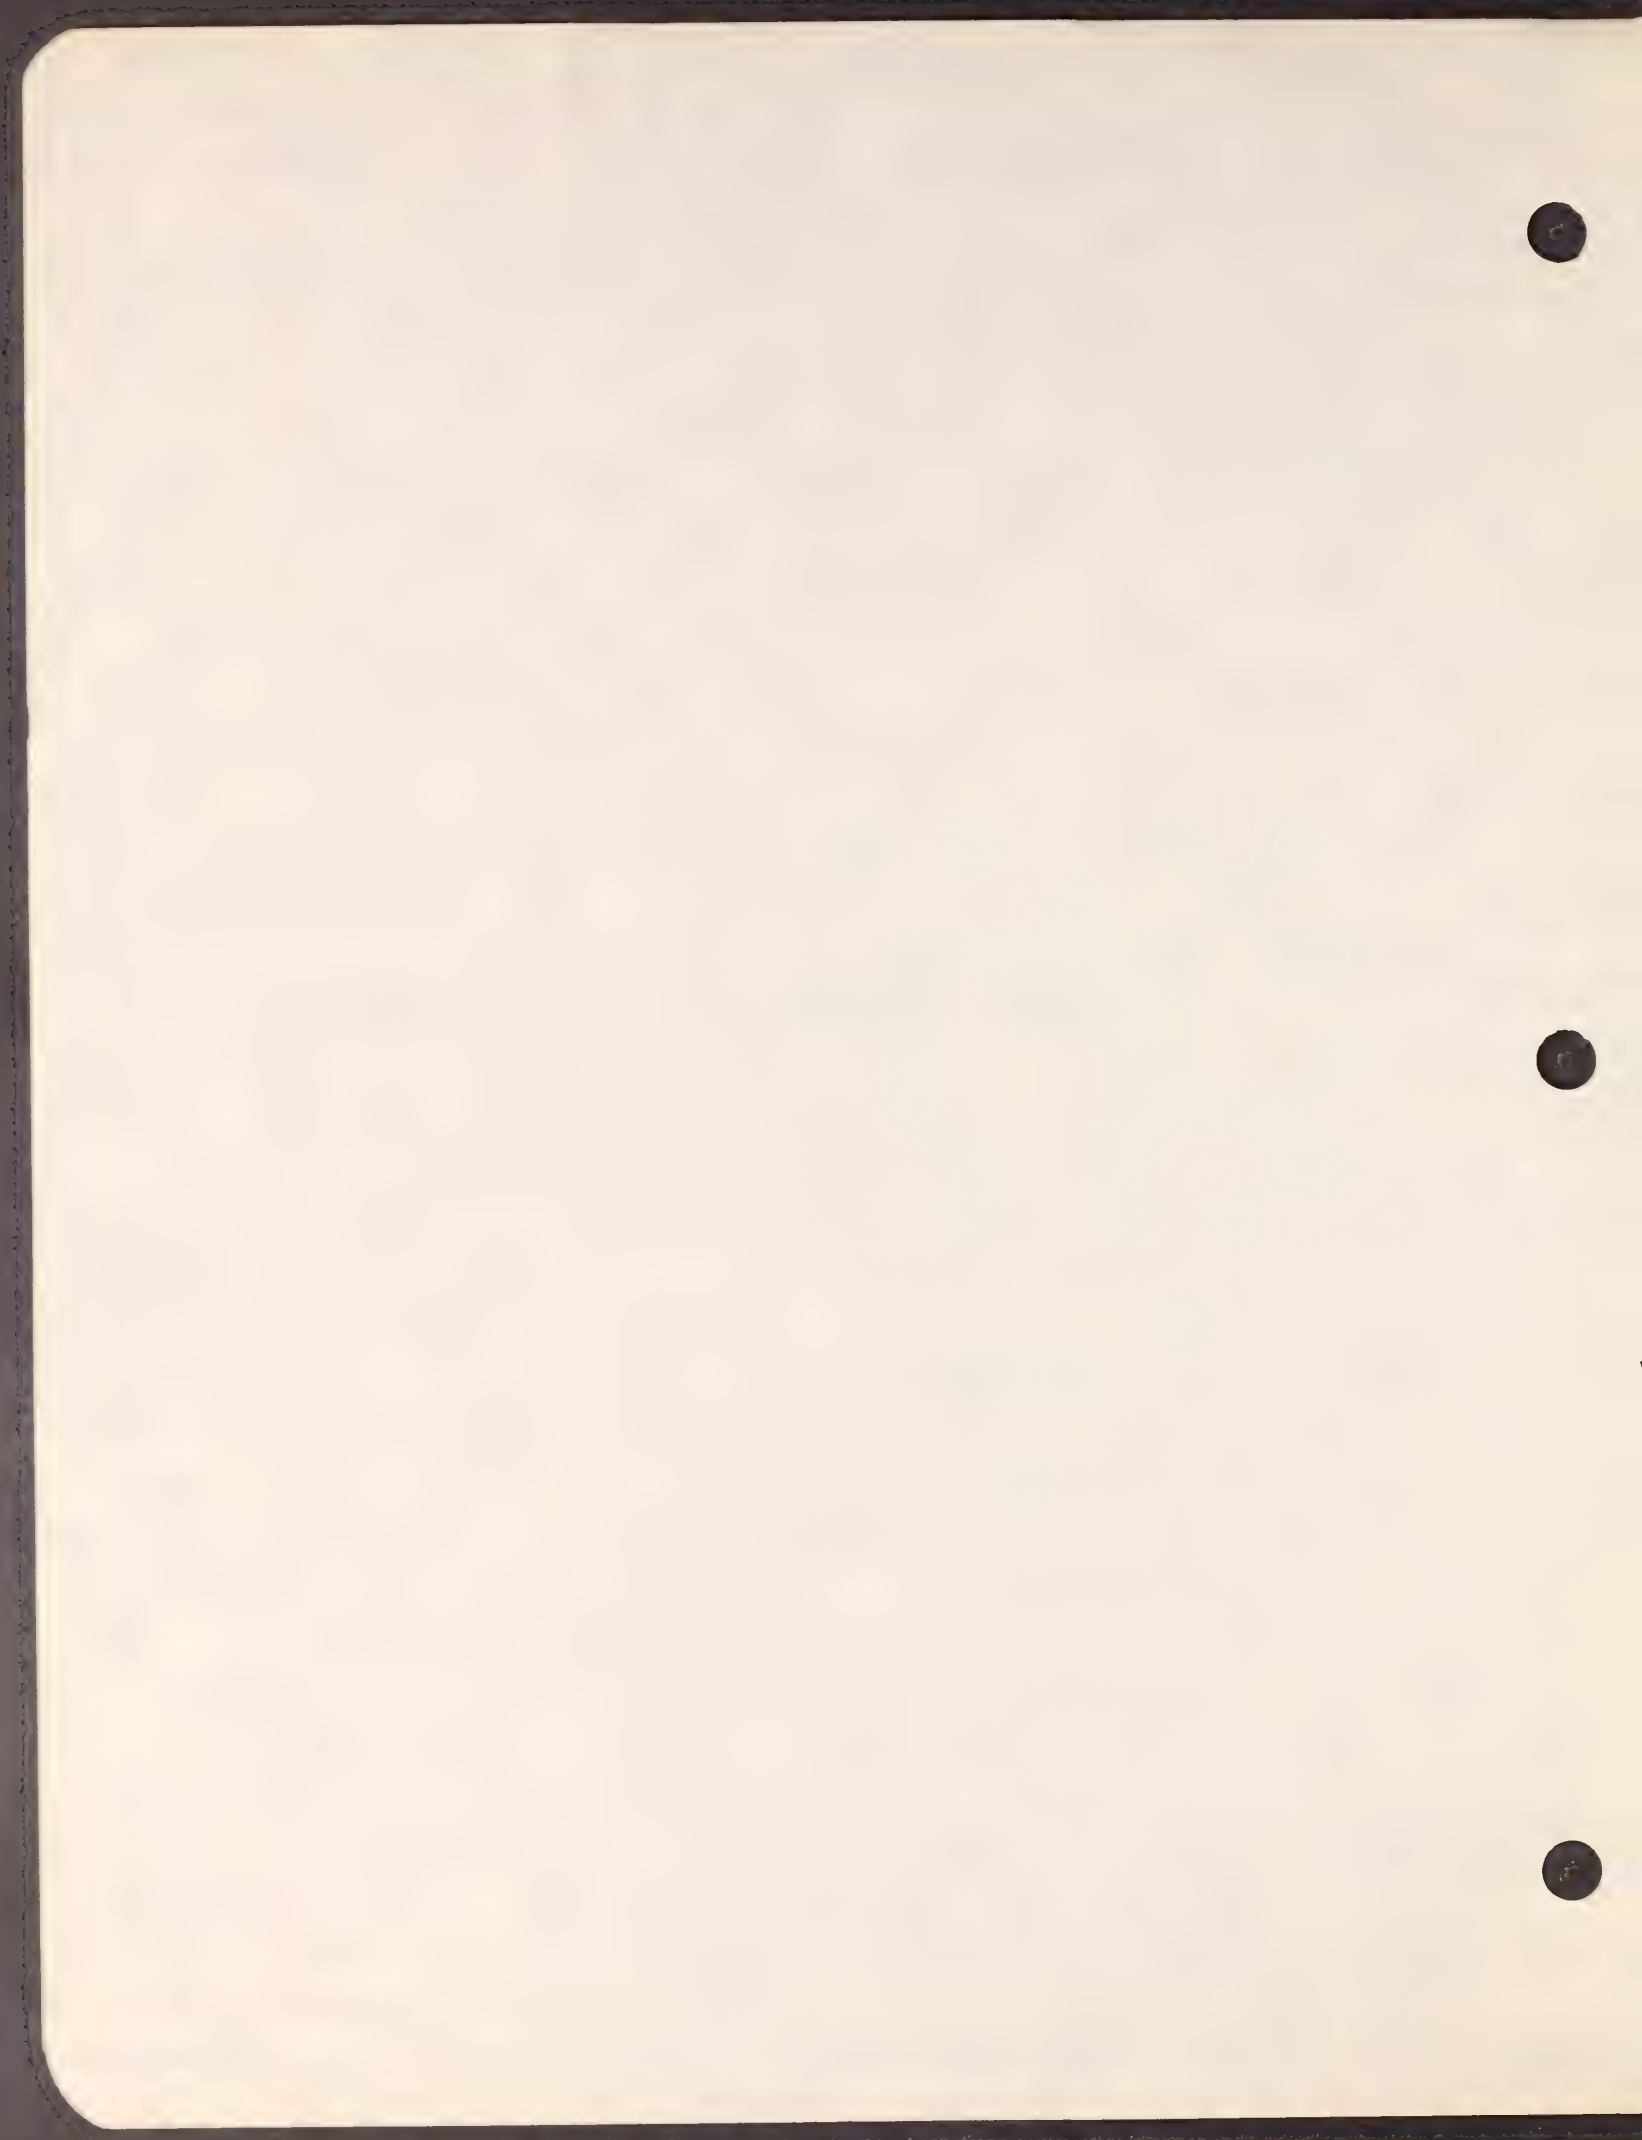

Maybe Gramp's Name is Here

A lady residing in Toronto, Mrs. Macgillivray is a descendant of Doctor Robert Stewart, a native of County Down, who after a period of industrial training as a physician, finally graduated from Glasgow Medical School in 1832.

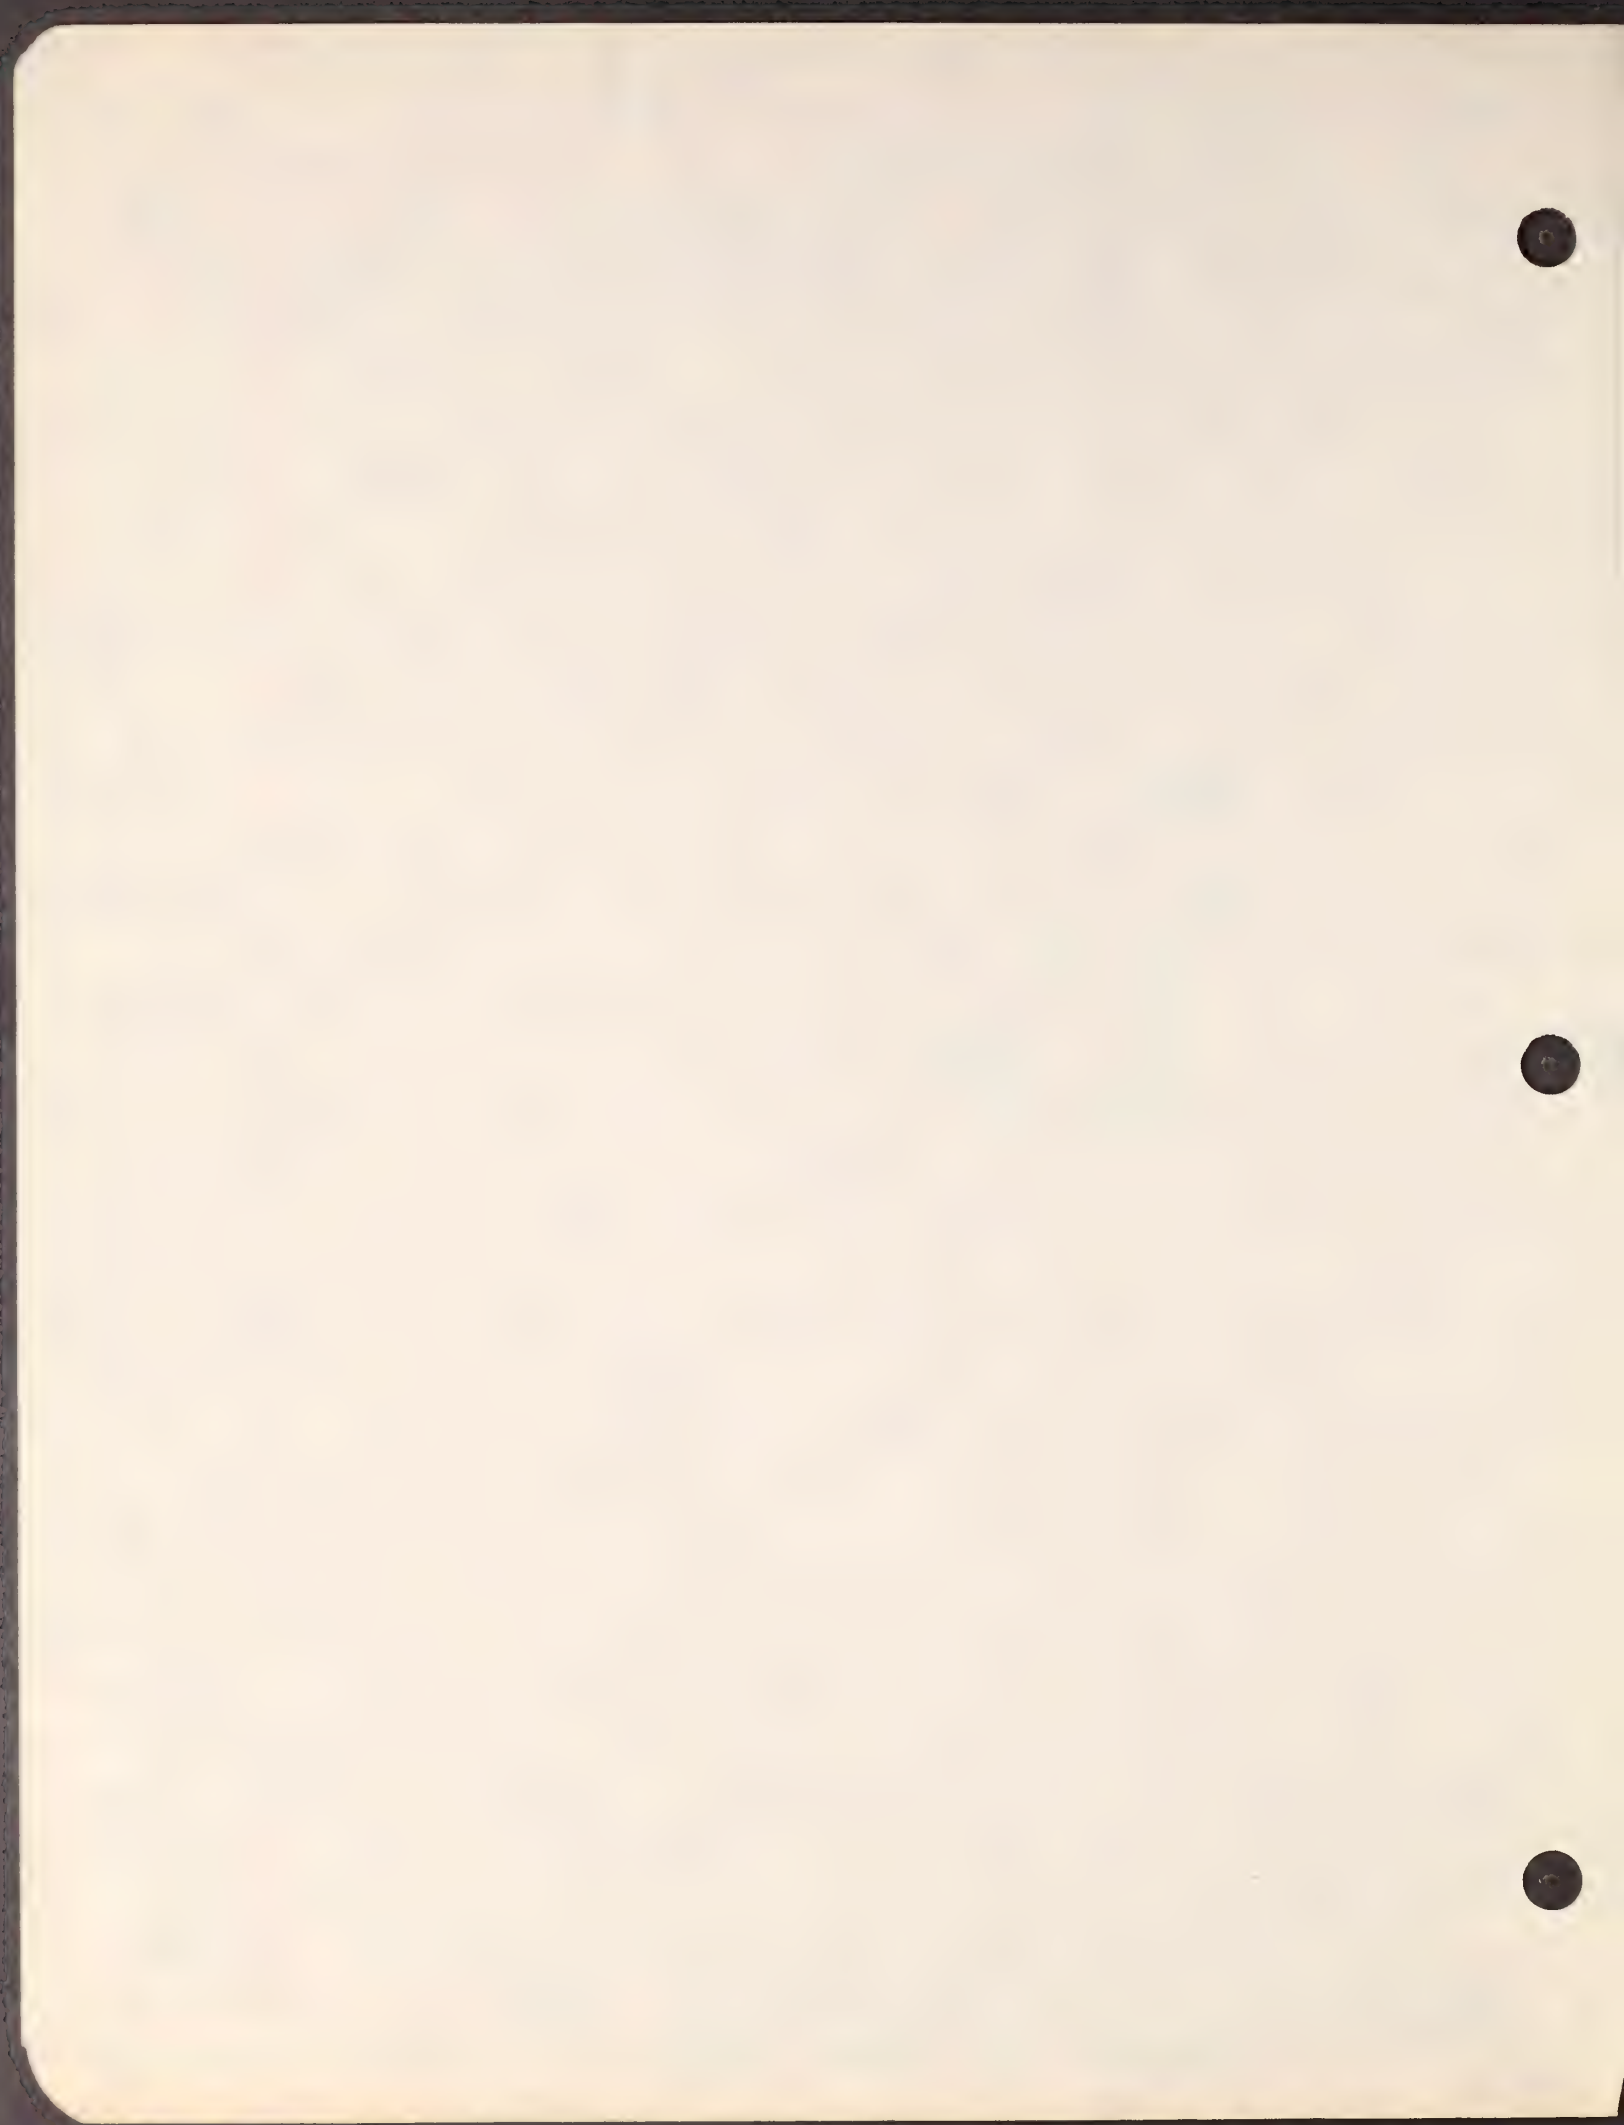

That same May, he embarked for Canada as physician on board a vessel from Greenock, Scotland. Unfortunately, the passengers developed illness during the voyage. It is believed that cholera turned the ship into a hospital with Doctor Stewart in charge. On arrival, his passengers eventually arrived in Port Hope, Upper Canada with Dr. Stewart in charge.

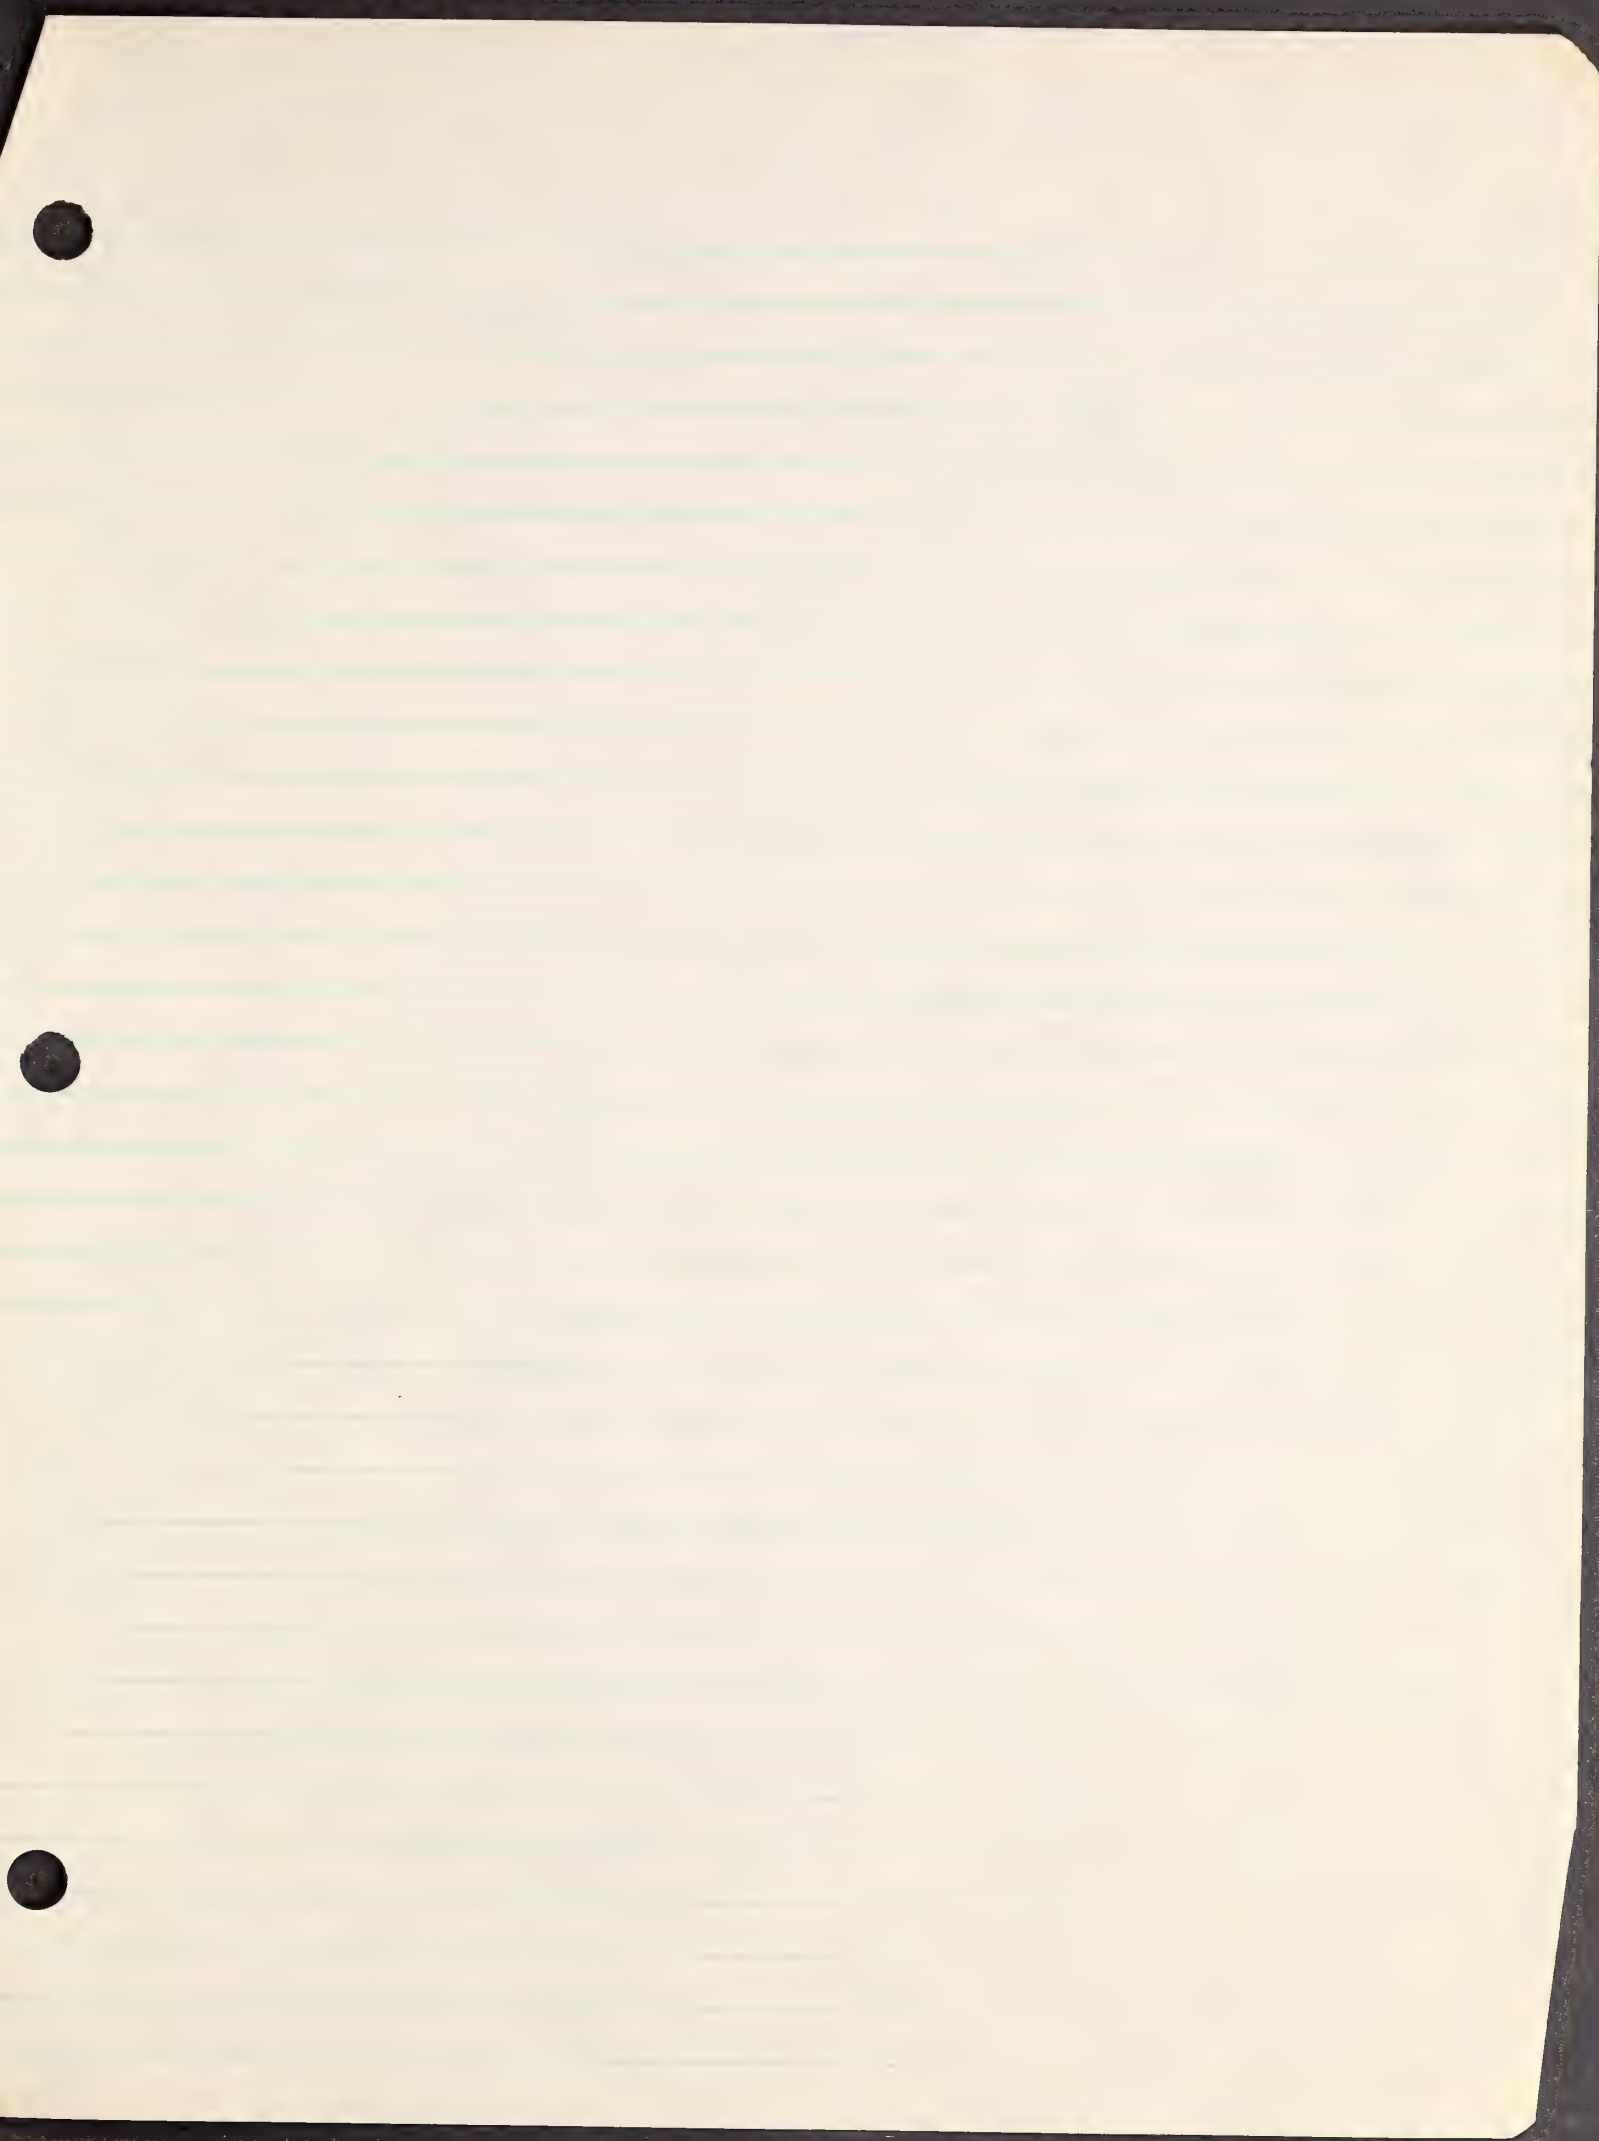

When the doctor was released from his duties, his patients signed a letter of thanks to Dr. Stewart. There is a list, each of whom signed in token of their appreciation.

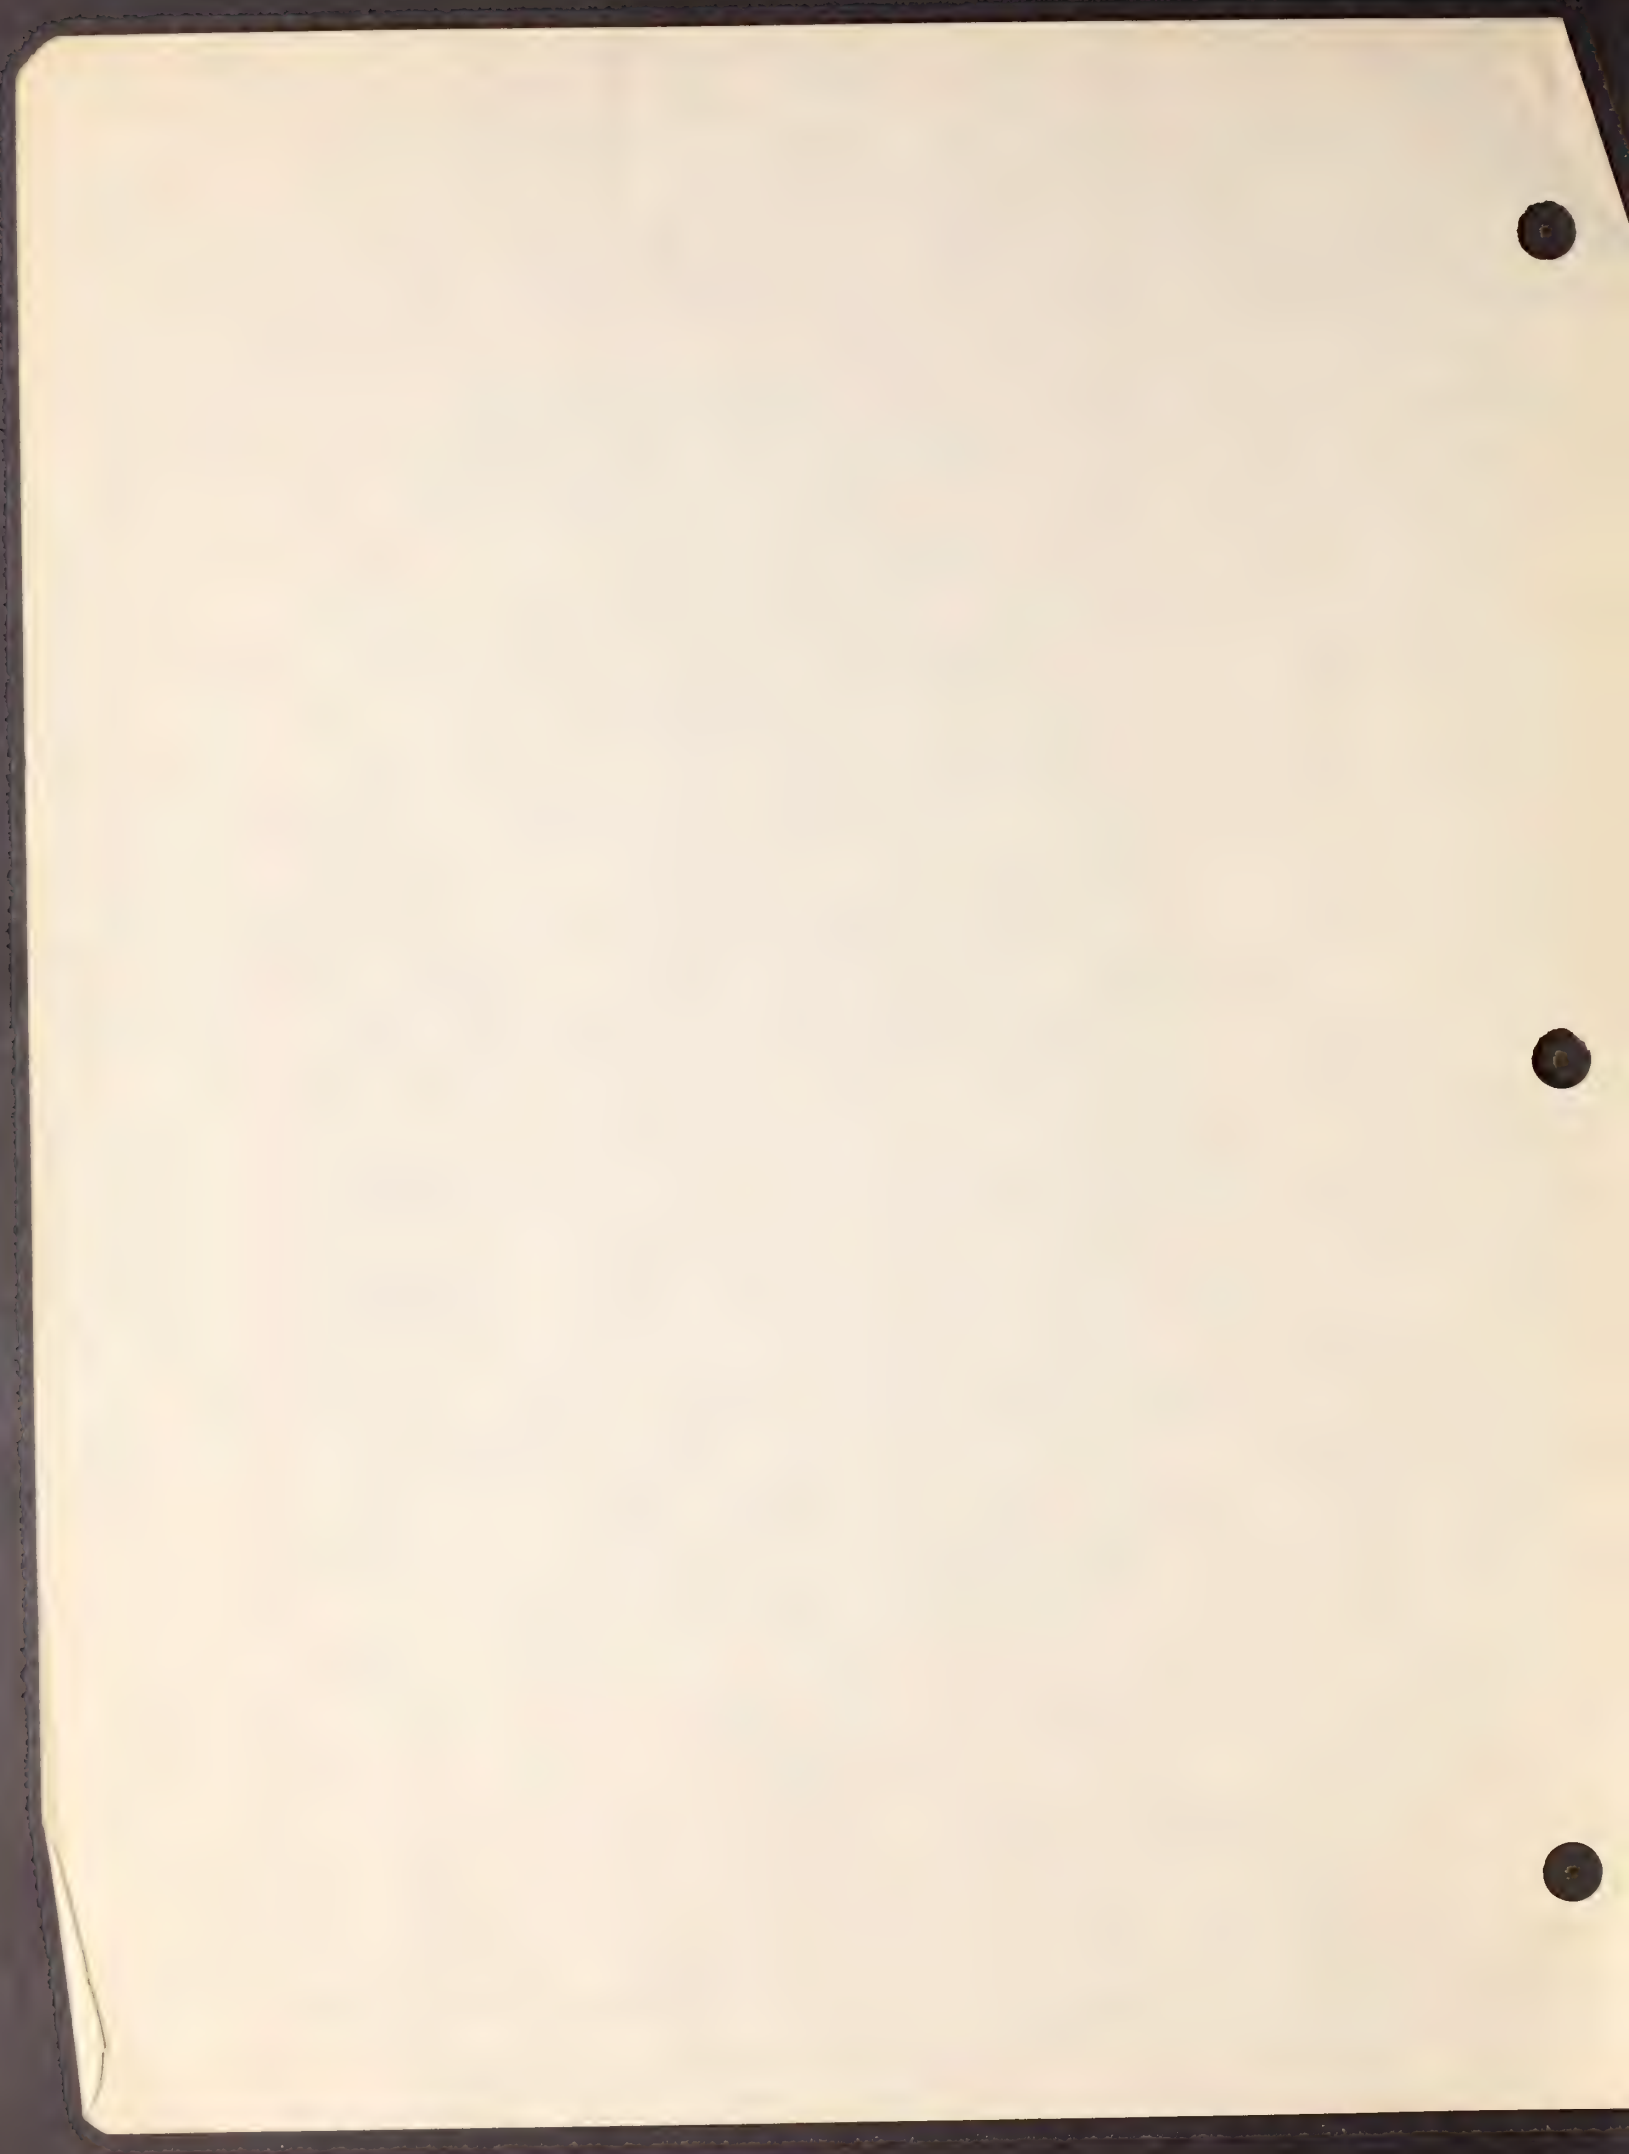

After leaving his patients, Dr. Stewart settled in Bath, on the Bay of Quinte. Here he remained from 1832 to 1850, when he removed to Kingston for duty as the penitentiary. On his departure from Bath, the residents of the village and neighborhood signed a letter of thanks. Here is a list of their signatures.

If your ancestor's name appears in either of these
two lists, the Kingston and District Branch will be happy in
being able to help you.
